# Table of Contents

## Preface

本节讲解Tomcat服务器的体系结构和设计

This section of the Tomcat documentation attempts to explain the architecture and design of the Tomcat server. It includes significant contributions from several tomcat developers:

- Yoav Shapira ([yoavs@apache.org](mailto:yoavs@apache.org))
- Jeanfrancois Arcand ([jfarcand@apache.org](mailto:jfarcand@apache.org))
- Filip Hanik ([fhanik@apache.org](mailto:fhanik@apache.org))

## Table of Contents

The information presented is divided into the following sections:

- **Overview** - An overview of the Tomcat server architecture with key terms and concepts.
- **Server Startup** - A detailed description, with sequence diagrams, of how the Tomcat server starts up. “Tomcat服务器如何启动”的详细说明
- **Request Process Flow** - A detailed description of how Tomcat handles a request. “Tomcat如何处理一个请求”的详细说明
